

Contractor Expectations – Hazardous Waste Management *Revised September 2016*

The University of Tampa follows all federal and state laws, which includes RCRA and has published policies that are to be followed at all times. By entering into a contract with the University, a contractor affirms that she/he understands and accepts responsibility for following these rules:

Contractors must:

- Know and disclose to the appropriate UT project manager information about all hazardous waste genengsecure location.
- Container labeling must be accurate and follow the UT standard protocol and must be characterized and/or analyzed to determine the disposal process. UT can provide sample labels for your use.
- It is a violation of federal law to transport hazardous waste or waste that is “On Hold Pending Analysis” off campus.
- Disposal of hazardous waste is to be coordinated with the UT project manager and originals of manifests and activity reports must be delivered to the University’s Chemical Hygiene & Biological Safety Officer (CHBO). UT is required by RCRA and the FDEP to keep these records and have them available for inspection at any time.
